2nd edition
Monticello, Chile

www.globalgrapeconvention.com

Why attend?

After a successful first edition in 2024 — which brought together over 1,000 attendees and 60 sponsoring companies — the Global Grape Convention returns in 2026 as a key platform for strategic reflection on the table grape business. This comes at a time when the global market exceeds USD 9 billion annually, and leading origins like Chile, Peru, Mexico, and the United States compete for market share through varietal innovation, quality, and efficiency.

This convention has become an essential milestone, **emerging in response to an industry undergoing major transformation — driven by varietal renewal, changes in retail, the impact of climate change, and shifting consumer preferences.**

It's a **gathering designed to address these issues** with a forward-looking perspective, bringing together the industry's key players to spark meaningful conversations **that help shape the future of the grape business with a global vision and a strong focus on value.**
